

CANSSI Distinguished Postdoctoral Fellowships 2023 Project List

CANSSI Distinguished Postdoctoral Fellows have the opportunity to participate in a major research project. Below are the eligible projects for CDPF recipients whose awards begin in 2024:

- 1. Advancing Spatial Survival Models with an Application to Cancer Data
- 2. Aggregation Of Machine Learning Procedures For Small Area Estimation
- 3. <u>Behavioural Change Mechanisms in Complex Epidemic Models</u>
- 4. <u>Causal Inference For Time Series Data</u>
- 5. <u>Development Of Innovative Bayesian Methods To Address Statistical Challenges</u> in Longitudinal Electronic Health Record Data
- 6. Explainability And Interpretability Of Black-Box Models
- 7. Fine-scale And Functional Mapping Of Brain Imaging Genetics, And Aging
- 8. <u>Functional Generative Modelling For Computer Vision And Representation</u> <u>Learning</u>
- 9. Learning Under Selection Bias And Causation
- 10. Modelling Regional Migratory Movements With Receiver-Based Data
- 11. <u>Multi-Scale Estimation Methods For Infectious Disease Management</u>
- 12. <u>Novel Statistical Methods For Complex Data-Enabled Learning And Causal</u> <u>Discovery</u>
- 13. <u>Predictive Neural Spatio-Temporal Self-Exciting Point Processes With Application</u> <u>Of Crime Data Modeling</u>
