

Call for Expressions of interest

ASSOCIATE DIRECTOR FOR SMALLER INSTITUTIONS

The Canadian Statistical Sciences Institute (CANSSI) invites expressions of interest to fill the newly created position of Associate Director (AD) for Smaller Institutions.

Position Description

Associate Directors work closely with the Director, Deputy Director, and Regional Directors to form the primary management and administrative group for CANSSI.

Associate Directors provide feedback on all aspects of CANSSI operations, help steer CANSSI developments, and adjudicate the smaller budget programs as well as the CANSSI Distinguished Postdoctoral Fellowships program.

Associate Directors also help organize regional input into CANSSI. There are AD positions representing each CANSSI region (Atlantic, Quebec, Ontario, Prairies, and Rockies), as well as a position representing smaller institutions.

Associate Directors serve three-year terms, and regular rotation of ADs is a key strategy in preserving the grassroots guidance of CANSSI. CANSSI especially welcomes applications that will bring in new and diverse leadership.

Qualifications

Applicants for the AD for Smaller Institutions position should be faculty members in statistical sciences at a [CANSSI member institution](#). Typically, an individual taking on this role would be an associate or full professor.

How to Apply

To express your interest in serving as the AD for Smaller Institutions, please submit a paragraph outlining your relevant experience and qualifications to the Smaller Institutions Nominating Committee (see below).

You are welcome to contact the Nominating Committee if you have questions or would like more information.

Expressions of interest will be accepted until the position is filled.

Nominating Committee

To contact the Smaller Institutions Nominating Committee, email Karen Buro at BuroK@macewan.ca.
