

Job Posting | Université de Montréal

Department statement

Vibrant, multidisciplinary and innovative, the [Faculty of Arts and Science](#) is one of Université de Montréal's largest faculties. Through its 28 departments, schools, centres and one institute, it offers over 300 undergraduate and graduate programs, some of which are unique in Quebec. It is also home to some 30 interdisciplinary research centres and groups. Every day, its 650 faculty members are helping shape a better tomorrow by advancing knowledge and encouraging the convergence of perspectives.

The excellence of the professors of the [Department of Mathematics and Statistics](#) (DMS) contributes to its outstanding international reputation. It benefits from an exceptional scientific environment, with the presence of the [Centre de recherches mathématiques](#) (CRM), the [MILA](#) (Institut québécois d'intelligence artificielle) and [IVADO](#) (Consortium de recherche, de formation et de mobilisation des connaissances en intelligence artificielle).

Successful candidates whose research area is related to artificial intelligence may be considered for a position as an IVADO professor, which offers enhanced start-up conditions.

Day-to-day responsibilities

Through your undergraduate and graduate-level teaching, and your research activities, you will contribute to the Faculty's pursuit of excellence. Furthermore, you will promote your discipline and actively participate in the daily activities of a renowned institution. As such, you will:

- Teach undergraduate and graduate classes;
- Supervise graduate students;
- Develop a high-quality research program in statistics and pursue publication activities;
- Apply for funding from major granting agencies;
- Participate in the dissemination of knowledge and in the outreach of the University through conferences and scientific activities;
- Contribute to the operation and development of the Department, the Faculty of Arts and Science and the Université de Montréal.

Qualifications

- Hold a PhD in Statistics, Biostatistics, Mathematics, or in another related field;
- A strong research and publication record;
- Demonstrated ability to provide high-quality university teaching;
- Have adequate proficiency in the French language or be committed to learning it once hired, through the Université de Montréal's French language support program, in accordance with the [Université de Montréal's language policy](#).

Additional information about the position

- Competitive salary and a comprehensive range of benefits;
- Expected start date: **June 1st, 2026**, or according to the selected candidate's availability;
- Located at Montreal campus.

How to submit your application

Submit your application through our online recruitment system (click on the “Apply for job” button) before **November 2, 2025**. Your application must include the following documents:

- A cover letter;
- A curriculum vitae;
- Copies of, or links to, three recent publications or research papers;
- A statement outlining your teaching and mentoring experience and approach;
- A research program proposal;
- At least three letters of recommendation submitted directly by the referees to the department.
